SUMMARY

Aspiring Software Engineer and Full-Stack Developer with hands-on experience building web applications using React, Node.js, MongoDB, MySQL, JavaScript, and Python. Top 1% contributor in GSSoC. Passionate about software development, problem-solving, and building scalable applications, and seeking opportunities to grow through real-world development experience.

EDUCATION

ITM SLS Baroda University

Bachelor of Technology - BTech, Computer Science Engineering

Vadodara, Gujarat

July 2023 - June 2027

Aditi Science School

Higher Secondary Education - Science Stream

Vadodara, Gujarat

June 2021 - May 2023

EXPERIENCE

GirlScript Summer of Code (GSSoC) 2025 - Open Source Contributor

- Contributed actively to multiple open-source repositories, including issue fixes, feature additions, and code improvements.
- Merged 36+ pull requests across various projects, earning recognition as a top 1% contributor.
- Worked on real-world codebases, improving documentation, frontend components, and backend features.

PROJECTS

WanderLust | Node.js, Express.js, MongoDB, Cloudinary, Mapbox | [Details](#)

- Developed a full-stack accommodation booking platform inspired by Airbnb using MVC architecture.
- Implemented JWT authentication, role-based authorization, image uploads with Cloudinary, and interactive maps using Mapbox.
- Built secure CRUD operations for listings, reviews, bookings, and user management.

InvestEase | React, Node.js, Express.js, MongoDB | [Details](#)

- Built a digital investor self-service platform for mutual fund investors.
- Implemented JWT authentication, KYC management, SIP tracking, nominee management, and statement generation.
- Developed an Admin Dashboard and Guided Resolution Assistant to reduce customer support dependency.

IdeaFlow | React, Vite, Tambo AI | [Details](#)

- Developed an AI-powered product planning platform that transforms ideas into structured product blueprints.
- Implemented AI-assisted editing, section regeneration, PDF export, and local project persistence.
- Designed a modern SaaS-inspired user interface and deployed the application on Vercel.

SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL, C

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose, MySQL, SQLite

Tools: Git, GitHub, Postman, Vercel, Render, MongoDB Atlas, Streamlit, Google Cloud

Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Problem Solving

ACHIEVEMENTS

- Secured Top 3 in SHIPIT 2025, an open-source competition by HEXSOCIETY focused on solving real GitHub issues.
- Top 1% Contributor - GirlScript Summer of Code (GSSoC) 2025.
- Finalist - 22North Product Engineering Challenge 2026 (Hackathon).

CERTIFICATION

- Data Analysis – Code Unnati & Edunet Foundation
- Google Cloud Compute Basics – Google Cloud Skills Boost
